

Mounting Requirements

Roman Shades

Product	Minimum Depth to Install	Minimum Depth for Flush Mount	Minimum Space for Outside Mount
with cord lock	3/4"	1 7/8"	2 1/2"
with continuous loop control	1"	2 3/8"	3"
upholstered valance with cord lock	1 1/4"	2 1/4"	2 1/2"
upholstered valance with continuous loop	1 1/4"	2 3/4"	3"
top down bottom up with cord lock	1 1/4"	2 1/4"	2 1/2"
2 on 1 headrail with cord lock	1 1/4"	2 1/4"	2 1/2"
2 on 1 headrail with continuous loop	1 1/4"	2 3/4"	3"

Please note: Roman shades have an option for a smaller headrail, minimizing depth needed for flush mount. Contact customer service for special requests.

Roller + Solar Shades

Product	Minimum Depth to Install	Minimum Depth for Flush Mount	Minimum Space for Outside Mount
without valance	3/4"	2 1/4"	2 1/4"
metal or fabric insert valance	1 1/4"	2 3/4"	1 1/4"
upholstered valance	1 1/4"	3"	3"
large metal or fabric insert valance*	1 1/2"	4 1/4"	2 1/4"
large upholstered valance (inside mount)*	1 1/4"	3"	3"
large metal or fabric insert valance*	1 1/2"	4 1/4"	2 1/4"
large upholstered valance(inside mount)*	1 1/2"	3 1/2"	n/a

* Larger valances are used for thicker materials and/or extra long shades. All outside mounted roller shades with upholstered valances will come in the larger size.

Please note: Some roller materials may have maximum widths, in areas with wide widths, it may be necessary to split the area into multiple shades side by side. In this case, multiple shades under one valance may be possible. Contact customer service for special requests.
